

609 Springfield Avenue Landscape Plan –
Prepared by Jessica Lindeman - Updated September 3, 2025

Lot 10 has an existing line of 22 arborvitae trees ranging in height from approximately 5 feet to 7 feet. Of these existing trees, 12 have expired. We have reached an agreement with the owner of Lot 10 that we will pay to have the 12 expired arborvitae trees replaced. The new arborvitae trees will be installed within the existing line and will be of the same kind and will be similar to the average height of the living arborvitae. This will complete the privacy wall that will serve both properties. The chain link fence will be removed.

Plant List – All native New Jersey plants – updated 9-3-2025

This selection of native New Jersey shrubs and small trees has been chosen for its visual appeal, low maintenance requirements and minimal to no watering once established.

Location/Quantity	Common Name	Scientific Name	As Planted Size	Mature Size
E. Side Yard Border
