

Summit, NJ

will enforce a
city-wide ban on
carry-out plastic
bags, polystyrene
(Styrofoam)
containers and
restrictions on use
of plastic straws
starting
May 1, 2020.

**Thank you
for not using me!**

Ordinances
19-3204, 19-3205
and 19-3206
prohibit retailers
from providing single-
use plastic carry-out
bags and Styrofoam
take-out containers,
and providing plastic
straws by request only.

Information on Summit's Single-use Plastics Ordinances

Summit, NJ will enforce a city-wide ban on carry-out plastic bags, polystyrene (Styrofoam) containers and restrictions on use of plastic straws **starting May 1, 2020**.

What bags are allowed?

Restrictions do not apply to garbage and pet waste bags, newspaper sleeves, laundry/dry cleaning bags or bags used to wrap baked goods, frozen food, meat, vegetables and bulk items.

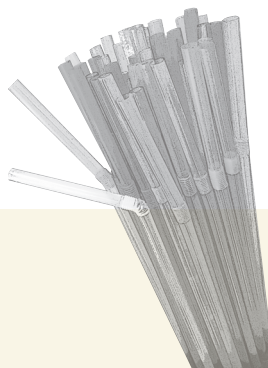

What is banned and what is restricted?

- 🍃 A ban applies to all **single-use plastic carry-out bags**. Customers should bring their own bag or use an alternative provided by the retailer (for a cost or for free).
- 🍃 Businesses offering take-out food service will be required to find an alternative to **polystyrene containers**.
- 🍃 **Plastic straws** will be given by request only.

Why are single-use plastics a problem?

Americans use **100 billion plastics bags** each year; only **1% are recycled**. They end up in landfills, waterways and neighborhoods.

Plastic straws are not recyclable. **Millions are used in the US every day.**

Carry-out plastic bags and Styrofoam containers can take up to **1000 years to decompose.**
