## City of Summit Tree Species 2020

The City of Summit will be planting 250 trees in public areas in 2020, including along our neighborhood streets. To learn more about these beautiful additions to our community, see descriptions and images below.

### Amanogawa Cherry

Height: 20 to 25 feet

Width: 5 to 7 feet

This picturesque, columnar tree has ascending branching and gray bark, making it perfect for use as an accent tree or in restricted spaces. Foliage is yellow green most of its growing season, with leaves dropping in the fall. The Amanogawa produces blooms that are fragrant and pale pink and small black cherry fruit.

Monrovia

### American Hornbeam

Height: 20 to 35 feet

Width: 20 to 35 feet

The American Hornbeam is a single- or multi-stem tree with a sinewy trunk and bluish-grey leaves. Leaves are bluish, green and turn yellow, orange and dark red in the fall. Flowers are white if female and yellow-green if male, with nutlets in a leafy cluster.

University of Vermont; Morton Arboretum

### Blackgum

Height: 40 to 70 feet

Width: 30 to 45 feet

Summer leaves are a dark green with a high-gloss appearance, but the most spectacular part of this tree is the fall foliage with many shades of yellow, orange, bright red, purple or scarlet that may appear on the same branch. Bark matures to medium gray and resembles alligator hide. Fruit is bluish-black and is loved by many birds.

Arbor Day Foundation

### **Constellation Dogwood**

Height: 22 to 25 feet

Width: 22 to 25 feet

An upright tree with spreading branches, the White Dogwood produces dark green leaves that turn reddish purple in the fall. The flowers are enclosed by four white, rounded bracts with a pointed tip.

Rutgers; Monrovia

### **Ivory Silk Japanese Tree Lilac**

Height: 20 to 30 feet

Width: 15 to 20 feet

This is a sturdy, upright tree with reddish-brown, cherry-like bark that becomes gray with age. The foliage is dark green, and blooms large, creamy-white flower clusters in the late spring. Fruit presents in clusters of capsules, turning from green to brown.

University of Michigan Herbarium

### **Japanese Snowbell**

Height: 20 to 30 feet

Width: 20 to 30 feet

Japanese Snowbell is a compact, deciduous, flowering tree with horizontal branching and a rounded crown. Fragrant, bell-shaped flowers “drip” from branches with dark green foliage in early summer. Foliage turns yellow to red in the fall.

Monrovia

### **Kwanzan Oriental Cherry**

Height: 25 to 35 feet

Width: 20 to 25 feet

Made famous by the Washington D.C. cherry blossom displays, this tree is valued for its beautiful dark pink blossoms and vase-shaped growing habit. Leaves emerge reddish copper in the spring, turn dark green in the summer and orange-brown in fall.

Arbor Day Foundation

### Lacebark Elm

Height: 50 to 75 feet  
Width: 30 to 75 feet

This graceful elm has a high degree of urban tolerance, making it a wonderful city shade tree where a larger tree is needed. It's leaves are dark green in the summer and yellow to wine color in the fall. Its distinctive bark is mottled, creating colorful patterns in its trunk.

Arbor Day Foundation

### Magnifica Hackberry

Height: 50 to 60 feet  
Width: 50 to 60 feet

Magnifica Hackberry is a large, desirable tree because it resists common Hackberry diseases and it has better insect resistance than other similar species. Its lustrous green leaves turn yellow in fall. Flowers are inconspicuous.

NVK Nurseries; Deep Fork Tree Farm

### October Glory Red Maple

Height: 50 to 60 feet  
Width: 40 to 50 feet

The October Glory Red Maple was selected in New Jersey for outstanding fall color and uniform growth and was introduced in 1961. Shiny green leaves hold longer in fall, turn to a crimson-red color. Suited to locations where space is ample.

Arbor Day Foundation

### Okame Cherry

Height: 15 to 30 feet  
Width: 20 to 30 feet

The Okame Cherry is one of the first to bloom each spring. Polished reddish-brown bark and rosy, pink blooms that flower longer than most cherries, make this a standout. Leaves are golden yellow, turning to orange and red in the fall.

### **Persian Ironwood**

Height: 15 to 40 feet

Width: 10 to 20 feet

This four-season tree is upright and columnar with branches that arch outward toward the tip. They bear a canopy of oval-shaped, lustrous leaves which emerge bronze and burgundy in the spring, mature to dark green in summer and turn crimson, orange and gold in the fall. Small, spidery red flowers are produced on bare stems in the winter.

Morton Arboretum; Monrovia

### **Robin Hill Service Berry**

Height: 25 to 35 feet

Width: 12 to 15 feet

The Robin Hill is an upright Serviceberry with dense foliage of bronze-tinged green leaves, which turn yellow to red in fall; attractive, faintly pink flowers in April which fade to white; and small, red to purple fruits which are attractive to birds.

Gardeners Supply; FK Nursery

### **Ruby Slippers Amur Maple**

Height: 15 to 20 feet

Width: 15 to 20 feet

The Ruby Slippers Maple is covered in red samaras (helicopter seed pods) that resemble red slippers throughout the summer. The glossy, dark green leaves turn brilliant shades of red, orange and yellow in fall.

The Tree Farm, Ray Wiegand's Nursery

### **Yellowwood**

Height: 22 to 25 feet

Width: 22 to 25 feet

The smooth gray trunk of the Yellowwood divides a few feet above the ground into several ascending branches. Compound leaves are bright green in the summer and golden yellow in the fall. Creamy white, pendulous flowers bloom May through June.
