Type of structure/ waste to be removed: <input type="checkbox"/> 1-family <input type="checkbox"/> 2-family <input type="checkbox"/> Multi-family: # of units ____ <input type="checkbox"/> Commercial <input type="checkbox"/> Other:		

REQUIRED DOCUMENTS & FORMS:

The following documents and forms are required at the time of demolition permit submittal.

- UCC Permit application forms**
 - Jacket (UCC F100)
 - Building Tech Section (UCC F110) and
 - Construction Permit (UCC F170)
 - If required, Plumbing Tech Section (UCC F130)
 - If required, Electrical Tech Section (UCC F120)
- One (1) copy of a valid home improvement contractor registration if the construction being demolished is in a R2, R3, R4, or R5 use group.**
- Two (2) copies of a site plan showing (to scale) the size and location of all construction to be demolished and the location and size of all existing structures and construction that are to remain on the site or plot (N.J.A.C.5:23-2.15(f)1.i.).**
- Letter from a licensed asbestos company stating there is no evidence of asbestos.** Before a structure can be demolished or removed, the owner or agent shall document that the requirements of USEPA 40 CFR 61 SUBPART M have been or shall be met. A permit to demolish or remove the structure shall not be issued until the owner or agent notifies the enforcing agency that all friable asbestos or asbestos containing material that will become friable during demolition or removal have been or will be properly abated prior to demolition (Construction Permit required for abatement). If evidence of asbestos exists, an asbestos abatement report from a licensed asbestos company is required. Demolition that is institutional, commercial, industrial, large scale residential (five or more units) must comply with the EPA'S NESHAP (National Emission Standards for Hazardous Air

Pollutants) standards. All surveys and samplings must accompany the abatement report from a licensed asbestos company must accompany a permit application.

- The Letter/report must be dated and contain the correct tax address of the property being demolished.
 - I have read and agree with the above asbestos requirements and will comply if any asbestos is encountered.

- An **NJ DEP 5G3** authorization is required if:
 - construction activities including clearing, grading and excavation (that disturb one acre or more, or that disturb less than one acre but are part of a larger plan of development or sale);
 - single family home construction that disturbs one or more acres of land..
 - construction of a sanitary or hazardous waste landfill before it receives wastes, or construction that does not disrupt waste material in a properly closed landfill.
 - Certain industrial facilities where construction activities are proposed are not eligible for the construction General Permit and must apply for a different permit:
 - facilities with storm water subject to EPA effluent guidelines for cement manufacturing; fertilizer manufacturing; steam electric; coal pile runoff; mineral mining and processing; ore mining and dressing; and asphalt emulsion;
 - all mining and quarrying activities previously covered under this permit. This includes active or inactive mining or quarrying of sand, gravel, soil, shale, or clay including crushing, grinding, pulverizing, and washing activities
 - construction at landfills except as noted above

Summit City Engineering permit application for sewer capping

- Engineering permit fee for sewer capping is \$105 - The engineering permit application can be found online at www.cityofsummit.org.

Proof that rodent baiting at the property has been done within 2 weeks of permit application submittal (i.e., an invoice).

- Letter/invoice/proof must be dated and contain the correct tax address of the property being demolished.

APPLICANT STATEMENT OF UNDERSTANDING *(By signing, I agree to and understand the following):*

- A separate application and permit shall be required for each building as per N.J. Uniform Construction Code requirements (*N.J.A.C.5:23-2.15(c)*).
- This form must be completed in full as part of the process to obtain the required construction permit. Failure to complete this form may delay the process in obtaining a construction permit.
- Attached email correspondence is adequate in lieu of actual sign off/s or letter/s.
- Whenever a structure is demolished or removed, the premises shall be maintained free from all unsafe or hazardous conditions by the proper regulation of the lot, restoration of established grades and the erection of the necessary retaining walls and fences in accordance with the provisions of the appropriate subcodes (Lot regulation: *N.J.A.C. 5:23-2.17(d)*).
- I am also responsible for any other requirements not listed in this application.
